

# DEFENSE INDUSTRIAL BASE

## DIB100, Distance Education - Power of Community (DE-POC)

### **Who Should Attend**

Defense Industrial Base (DIB) Partner point of contact (POC) or employees involved with any aspect of DIB network analysis, reporting, response, and data collection pertaining to DIB-related intrusion incidents.

### **Prerequisites**

NONE

### **Duration**

8 Hours / 1 Week

### **Course Description**

Familiarizes DIB points of contact and employees with DC3's DCISE for Reporting and Response of Intrusion Incidents, Media Submission Procedures, includes an overview of DC3's Damage Assessment Management Office (DAMO) assessment processes, and the importance of sharing relevant information.

### **Objectives**

- Properly complete an Incident Collection Form (ICF) for submission to DCISE in accordance with DCISE guidelines
- Explain the reporting and response process used by DCISE and DIB Partners
- Identify the personnel skills, knowledge, and facility security clearance required to assist with onsite incident response
- Identify the purpose of a Cyber Damage Assessment and its primary beneficiary.
- Explain the benefits of the DoD-DIB partnership

### **Topics Covered**

#### *DIB/DC3's DCISE Partnership Introduction*

- Organizational Expectations
- DIB Partner Responsibilities

#### *Response and Reporting*

- DIB/DC3's DCISE Reporting and Response System
- Gathering and Disseminating cyber incident-related information
- Standardized information collection, report generation and delivery

#### *Damage Assessments*

- Assessment Reports
- The Damage Assessment Process
- Damage Assessment benefits to DIB Partners

### **DE-POC Grading Policy**

Student progress is monitored through instructor observation of student participation in assignments, forum discussions and practical exercises as well as Knowledge and Performance Tests. Minimum passing score on all DCITA tests is 70%.
